

SD510, the complete, easy-to-install SIMU control box for three-phase motors

The SIMUDRIVE SD510 box safely controls your installation by enabling you to connect all the safety accessories you wish (4 sets of cells and a safety edge). It can be combined with numerous accessories, such as a badge reader, a clock or even an alarm, to simplify and protect access to it.

It is suitable for all types of installation including metal curtains or grilles and sectional doors. It is easy to connect and benefits from pre-set programs, making it quick to set up and use.

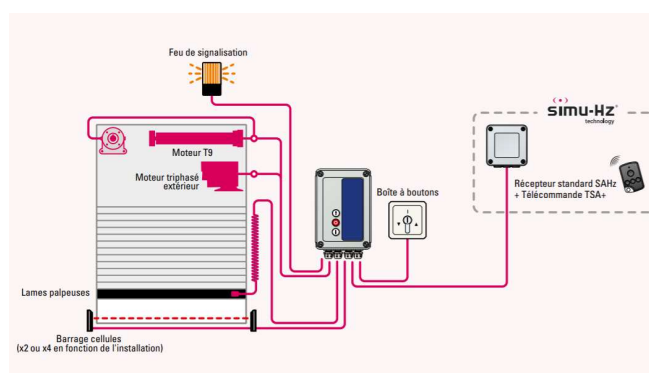

A BOX THAT IS SUITABLE FOR ALL CONFIGURATIONS

- Whether your site has a metal curtain, a metal grille or a sectional door, the SD510 can control your installation!
- This IP54-rated box is perfectly suitable for outdoor use.

A FULL-FEATURED BOX

- The SIMUDRIVE SD510 box controls your installation in complete safety, as it offers the possibility to connect 4 sets of cells and a safety edge.
- It can also be combined with numerous accessories, such as a badge reader, a clock or even an alarm to simplify and protect access to it.
- It is intuitive to use thanks to the 3 buttons on the front (up - stop – down).

EASY TO PROGRAM

- The three standard pre-set programs (according to the selected operating mode and the selected safety edge) make it easy to set up and use.
- Two levels of programming (level 1 and Expert) then allow you to personalise it to suit your installation.
- The built-in LCD screen guides you through the set-up procedure.

This product is available from September 2021.
